AQUA SHED, White Cypress

Affordable, beautiful, locally sourced and
manufactured exclusive to the Williams Group.

AQUA SHED* WHITE CYPRESS
decking is **termite resistant**,
duraclass 1. This 140 x 22mm
aqua shed profile has been
developed with a unique and
exclusive profile.

Beautifully presented with soft honey tones and is non bleed and
most importantly is very affordable.

FEATURES

The Aqua-Shed™ Decking profile minimises the natural cupping effect
and water pooling that often arises in decking.

SEE BACK FOR FULL FEATURES & BENEFITS

Aqua-Shed™ Decking is a specially designed profile that is:

- ✓ 140 x 22mm with a domed top shed water
- ✓ A slight convex curve to the upper surface;
- ✓ Stress release grooves strategically place to the underside
- ✓ Termite Resistant
- ✓ Soft Honey Tones
- ✓ Dura Class 1 - Naturally Durable
- ✓ Random Length
- ✓ Non bleed
- ✓ Sustainably sourced and locally manufactured, exclusive to Williams
- ✓ Maintains additional stain and or oils very well.
- ✓ AFFORDABLE

Benefits

Aqua-Shed™ Decking is designed with these features to assist in the run-off of rain water from the deck surface, minimising water pooling which in turn reduces the risk of cupping or movement of the timber when exposed to periods of wetting. The tapered shoulders also allows debris and grit to escape freely through the gaps in the decking.

The profile also reduces the risk of slips or falls associated with water accumulation on the surface.

White Cypress offers the end user a beautiful long lasting and extremely affordable material for an everlasting deck.

\$\$\$ Don't forget to include all your associated timber, fixings and post support materials, save money and package your entire project.
